GLEANINGS.

We first hear of worried in 1340. The wealth of France is estimated at \$42,000,000,000.

The government departments have ordered that employees shall not take from their offices rubber bands for the making of rubber balls for their children.

A Viennese police judge was confronted the other day by a boy of twelve and one-half years who had in less than three years committed 115 thefts of articles, valued at over \$1,200.

On the voyage of the steamship Korea from San Francisco to Honolulu over 200 miles from Honolulu several English sparrows alighted in the rigging and were captured by the sailors.

According to the British postmaster general, the postoffice experiments in typewriting telegrams have "not been altogether satisfactory." The London Globe conjectures that the telegraph department wants "something slower."

His Symptoms.

"Maybe that boy of yours will be famous some day," said the friend. "I shouldn't be surprised," answered Farmer Cornbloss; "he does like to wear curious clothes and say things that sounds more surprisin' than sensible."—Washington Star.

TESTED AND PROVEN

There is a Heap of Solace in Being Able to Depend Upon a Well Earned Reputation.

For months Barre readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

Mrs. Lewis Marcott, of 24 Maple Ave., Barre, Vt., says: "Three years ago Mr. Marcott gave a statement in which he told what a world of good Doan's Kidney Pills had done him. He had suffered for over two years with a heavy, dull pain in his back and through his hips. His back was weak and sometimes he would have sharp shooting pains across the loins. There was also trouble with the kidney secretions which were unnatural and full of sediment. He learned of Doan's Kidney Pills through a friend who has used them and procuring a box he began using them. He soon noticed they were helping him and after taking four boxes the pain had left his back and the kidney secretions had become natural and clear. He uses them now whenever he feels any slight return of the trouble and they never fail to give prompt relief. Our advice to anyone suffering from backache or kidney trouble is to procure Doan's Kidney Pills at E. A. Drown's drug store and give them a trial."

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Rode No Cyclopaedias.

Even a book agent sometimes falls of achievement through unforeseen misunderstanding.

"Colonel," said one of them affably to a Texan whose record he had looked up beforehand, "those are mighty fine boys of yours."

"The finest in the country, stranger," said the Colonel. "The finest in Texas."

"I reckon you buy them anything they want?"

"Why, stranger, I buy them anything they need, whether they want it or not."

"Then, Colonel, let me sell you a cyclopaedia for them. There's nothing else will do them so much good."

The Colonel looked at him in astonishment. "Why, stranger," he said, "them boys of mine don't need any cyclopaedia. They ride mules."—Youth's Companion.

CANNON VISITS LOWDEX.

He Will Spend Ten Days With the Congressman at Alexandria Bay.

Plattsburg, N. Y., Aug. 24.—Speaker Cannon Thursday morning left Valcour, the summer home of Congressman Joseph C. Sibley, whose guest he has been, for the Thousand Islands. He will make the trip in Congressman Sibley's yacht down the river via Montreal to his destination opposite Alexandria Bay, the summer home of Congressman Lowden, whose guest he will be during the coming ten days. Then he will return to Valcour, where he will remain until September 5. On that day Mr. Cannon will make a speech at Burlington, Vt., at a reunion of Civil war veterans on the invitation of Congressman Foster. On September 6, the speaker will return to this side of the lake and will make a speech at Hotel Champlain at the annual banquet of the Vermont Fish and Game league, at which the other principal speaker will be Governor Hughes.

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period that determines its duration seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; careless then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by Red Cross pharmacy. Price 50c.

Was It Leaking?

Lincoln Beachy, the well-known aeronaut, was criticizing in New York the airship of a rival.

"I don't want to be too severe on this dangerous contrivance of yours," Mr. Beachy said. "It is a bad affair all through, but I am willing to let it off easy, as the customer did with the careless barber."

"There was a barber in South Bend, who having been out late the night before, had a shabby head the next morning and cut a patron's cheek four times. After each accident the barber said, as he sponged away the blood, 'Oh, dear me, how careless!' and laughed, and let it go at that."

"The patron took all those gashes in grave silence. But when the shave was over, he filled a glass at the ice-cooler, took a mouthful of water, and with compressed lips proceeded to shake his head from side to side, and to toss it up and down."

"What is the matter?" the barber asked. "You ain't got the toothache, have you?"

"No, said the customer, 'I only wanted to see if my mouth would still hold water without leaking; that was all.'"—Washington Star.

BREACH IN AUSTRALIA

New South Wales Resists Commonwealth

REFUSES TO PAY DUTY

30,000 Searchers Find the Nation to Be Flourishing—National Investigation Disproves the Howl of the Calamity Crowd.

Sydney, N. S. W., Aug. 24.—An ardent fight is on between the Federal Government and the New South Wales Government concerning a tariff question. New South Wales is importing quantities of wire netting for distribution among the settlers. The Federal Government forbade the customs officials at Sydney to hand over a certain consignment until a duty of 25 per cent. was paid on it. New South Wales refused to pay the duty, basing its refusal upon the law exempting any state property from duty and sent a strong force of police to seize the netting. The customs officials were obliged to yield to the superior force. The Federal Government contends that the consignment was not for state use, but for sale to private persons, and therefore dutiable.

Hon. Joseph Carruthers, prime minister of New South Wales, declares his intention to resist the Federal Government. Sir William Lyne, acting Prime Minister of the Commonwealth of Australia, has announced in Parliament that he intends at all costs to compel Carruthers to obey the law, his breach of which renders him liable to five years' imprisonment. The logical outcome of Sir William's threat will be the arrest of Mr. Carruthers, by the Commonwealth does not possess a police force, while Mr. Carruthers controls the New South Wales police. There is intense public feeling among the opposite sides here and in Melbourne.

SCOTCH LAND BILL DROPPED.

Action of Government Due to Amendments Made by The Peers.

London, Aug. 24.—Because of the drastic amendments which the House of Lords threaten to make in the Scottish Small Land Owners' bill, which was attacked by Lord Rosebery in a brilliant speech on Aug. 13, the Government has decided to abandon the measure.

FLAG ORDERED SUPPRESSED.

Philippine Politicians Flaunted Secret Society Emblem too Freely.

Manila, Aug. 24.—The Government has given orders for the suppression of the Katipunan flag in the Philippines, and so to stop the sale of Katipunan emblems. The victorious Nationalist politicians flaunt this secret society flag on every occasion.

Final returns of the recent election have not been received, but the municipal politics heard from do not change the political complexion of the assembly, which is now given as follows:

Nationalists, 31; progressists, 16; independents 19; immediatists 7; independentists 4; national independent, 1; Catholic, 1.

The total vote record was 97,803, which is only one-fourth per cent. of the population.

DAMES AND DAUGHTERS.

Mrs. Herman L. Gebauer of Cleveland died from having been inoculated with poison from her pet dog.

The Duchess of Bedford is said to be able to bring down 200 pheasants in a day without exertion and has shot 115 partridges in a single day's driving.

Lady Ernestine Hunt, eldest daughter of the Marquis of Aylesbury, owns and operates a horse ranch at Calgary, Alberta, on a stretch of land nearly 40,000 acres in extent.

Miss Sarah C. Clark has been elected secretary and treasurer of the Union Five Cent Savings bank of Exeter, N. J. She is the only woman savings bank treasurer in the state.

For twenty-three years Mrs. Greenleaf Ambrose conducted a boarding house in Manchester, N. H. "And I never had a boarder who attended a dance hall or was a patron of a ball-room. I didn't keep it for that purpose."

Miss Grace Wishar is the only woman scenic artist in America. It was by accident that she became one, helping an artist get out a rush order. Her work was so good that she went east and entered the profession as a regular worker.

Miss Cheng, daughter of the Chinese minister to the United States, is to be educated in the United States. Miss Cheng, who is not yet sixteen years of age, has attracted much attention in Washington. She wears the oriental dress, speaks English and is quite a musician.

Mrs. W. J. Bryan can swim a mile. She is a splendid walker. She rides a bicycle with ease. She can drive mettlesome horses, put them in the barn, come into the house and bake, cook and sew. She knows how to keep house, and all her home expenses are recorded, so that she knows from day to day and week to week how matters stand. She is well read, not only in current literature, but in the good things of the past.

Her Discharge.

"Why did you leave your last place?"

"Sure, I was discharged for doing well, you know."

"Discharged for doing well? Why, where were you?"

"I work in the hospital, mom."—London Answers.

NEW VIEWS OF EARTH'S AGE.

Zoology, Says Dr. Scharff of Dublin, Reconstructs Its History.

The old theories of studying the former configuration of the earth's surface by investigation of fossil remains is to be thrown overboard. At one of the most important meetings of the Zoological Congress, in the first address ever given on the subject, Dr. R. F. Scharff of the Dublin Museum, Ireland, set forth the claims of zoogeography, or the evolution of continents as illustrated by the distribution of existing animals.

Dr. Scharff said:

"I believe that the oldest and most permanent forms of the earth's surface can be ascertained by a study of the distribution of present forms of animal life. y this means we may reconstruct the former globe and arrive at a very certain idea of what must have been."

"Take, for instance, the continent of North America. Animal forms found east of the Rocky mountains are comparatively unknown on the western slopes until modern times. But almost identical forms are found in Europe—Austria particularly. This led to the belief that at some time or other the continent had been connected with Europe by a strip of land, and that the Rockies had either been submerged and is comparatively new land, or else that it had been separated from the eastern part by a body of water. Probably western North America did not exist in remote times."

"It is also known by the same means that South and North America were not joined together until the middle of the tertiary period, many thousands of years ago, but geologically speaking, very recently. We are sure that there were other land masses to the east and west, and recent investigations have shown that Brazil and Africa were connected by land long before North and South America were joined, and the connecting ride still exists far beneath the sea."

"This fact is demonstrated by spider and crab forms which are analogous in South America and Africa, but which do not exist in North America. Indeed, it seems that in remote times southwest Africa was not joined to the rest of the continent, but was part of a land strip which connected Australia, Madagascar and South America. Analogous animal forms in different parts of the world hint with some certainty at a prehistoric connection."—Boston Herald.

HAILS ROOSEVELT.

JOHN THE BAPTIST.

President Prophet of American Demagogism, Says Paris Journal des Debats.

Paris, Aug. 24.—Great interest is taken here in the speeches delivered by President Roosevelt at Provincetown, Mass., and by Secretary Taft at Columbus, O.

The Journal des Debats, after sketching the powerful corporations the President is fighting, expresses fear that his methods are dangerous, saying:

"The role of the archangel killing the financial dragon presents dangers which a man less wedded to his purpose would perceive. The President already has contributed largely to the depression from which the New York Stock Exchange is suffering. Capital is hypersensitive and may be dangerously paralyzed by the most virtuous intentions."

"The President's theory of central control runs the risk of substituting for the plutocracy a demagogic socialization. President Roosevelt, who above everything is an honest man, has, perhaps, failed to realize what prey he is throwing at the feet of less disinterested politicians. The leveling idea from which he does not shrink may impregnate the American masses, who, with the foreign influx, are rapidly losing their old liberal American spirit. An evil like the trust evil should be handled skillfully, so as not to ruin the country."

"In following President Roosevelt's attack on the trusts it is impossible not to fear that he may overshoot the mark and justify those who regard the President as the John the Baptist of American demagogism. It is already to be foreseen that the politicians will surpass his intentions, and Republicans and Democrats alike will now consider it to be their duty to assail the trusts during the coming presidential campaign."

POTATO A LIFE SAVER.

Vegetable Carry from Body a Hat Pin Swallowed by Chicago Woman.

Chicago, Ill., Aug. 24.—The critical period in the condition of Mrs. C. G. Ferris of Detroit, Mich., who swallowed a hat pin at the Auditorium Annex Hotel Sunday night while dressing for an automobile ride, has been passed, according to Dr. Alex. Hugh Ferguson, the attending physician.

"We have located the pin," said the doctor, "and think an operation will not be necessary. The pin is near the appendix, and if it passes that point safely she patient will soon recover, otherwise an operation will be necessary. Mrs. Ferris is swallowing no liquid and is sustained by potatoe soup. The potatoe forms a mass around the pin, and is carrying it from her body."

"We have watched, with the X-ray, the potatoe food as it went through the various organs, tracing its progress inch by inch."

The American Tourist.

It has for years been brought home to us by comment more or less complimentary—that we Americans, traveling abroad, are closely scrutinized by the Europeans. But perhaps we have not realized that the observing eye of the younger—in fact, of the youngest—generation are turned upon us.

A Parisian woman, going to her children's playroom, discovered her little boy and girl absorbed in a remarkable occupation. The boy stood, motionless and solemn, on a small table in the middle of the room; the girl, arrayed in grown-up hat and coat, walked slowly round him, regarding him thoughtfully, now and then peering abstractedly into a red-covered book in her hand.

"What are you doing, children?" asked the puzzled parent.

"Oh, Paul is the Column Vendome, mamma," gravely explained the sister, "and I am a tourist from America—with a book, you know."—Youth's Companion.
